

**Examples of Custom Lifting Devises and Application we have produced for our customers:**

**Custom 78 Ton Capacity Chain Sling.**

Used to lift and rotate 55 Ton block. Customer gave their parameters needed & we came up with a lifting solution for their needs.

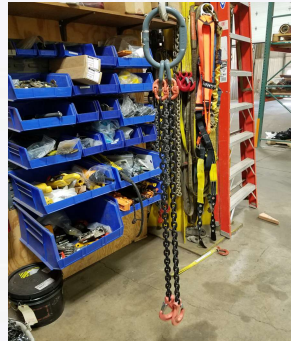

**Custom Aircraft Engine Sling.**

Customer supplies drawing and we manufacture devices to their specs.

**2-Leg Nylon Web Spreader.**

Worked with customer to supply better lead time and cost on existing slings in production.

**Standard 2-Leg Chain Sling.**

Assembled with stock items and able to ship within 1 business day.

**Custom 4-Leg Nylon Web Spreader.**

Custom sling to meet customer's needs & extra measures to protect sling and material.

**Custom 3-Leg Chain Sling.**

Able to work hand in hand with customer to supply correct lifting device with correct materials.

**Chain Sling with J Hook.**

Able to produce chain slings with standard J hooks or able to design custom J hooks for custom applications.
